#### INTRODUCTION

Always passionate about football and sports in general. I started playing football very early in the youth academy of Olbia Calcio and then joined the first team with which i made my professional debut. After that i had several experiences in Sardinia with others clubs in non-professional leagues.

I started coaching early and after obtaining the UEFA B licence, i spent several years in the youth academy of Olbia Calcio and Cagliari Calcio. In 2023 i had my first experience working with the first team, as the assistant coach of Mario Petrone in Budoni Calcio team in Serie D, national championship. .

Between these two football experience, i emigrated out of Sardinia, living a year in Spain and two years in Australia, opportunities which allowed me to learn two languages.

I've always been very keen on social work, i love travelling and learning about new cultures, i visited many European capitals and other experiences abroad, India, Senegal and East Africa where, in Uganda, i worked several months at the NGO "Deborah Ricci" as a volunteer.
